You can make a difference

UNTOLD THOUSANDS OF ADULTS AND CHILDREN SUFFER SEXUAL ASSAULT, ABUSE OR HARASSMENT EVERY YEAR. MOST OF THOSE INCIDENTS GO UNREPORTED, AND AS FEW AS 0.3% OF ASSAILANTS ARE EVER CONVICTED.

Why?

One main reason is the difficulty of proving allegations without corroboration. Thus the need for a mechanism to help any person who has suffered sexual violence to find others who have been victims of the same aggressor- and by finding each other, find the support and strength to seek justice.

Not Just Me

is an online registry for those who have suffered or witnessed date rape, sexual abuse or harassment. Victims and witnesses can submit confidential incident reports, and then be notified of others who have experienced or observed an incident with the same perpetrator. They can then message each other anonymously through the system, until they decide to share personal contact information and/or take coordinated legal action.

No names or other information are ever publicly visible.
