

South Dakota Sexual Assault Kit Inventory: Comparing 2016 and 2021 Unsubmitted Kits

2016

South Dakota enacts law mandating law enforcement send sexual assault kits for testing within 14 days of collection and lab must complete testing within 90 days. The South Dakota Division of Criminal Investigation performed a voluntary inventory and discovered 504 untested kits which have since been tested.

2019

Beadle County State's Attorney's Office under Mike Moore receives Sexual Assault Kit Initiative (SAKI) grant from the Department of Justice Bureau of Justice Administration coordinated by the SD Network to examine and improve sexual assault kit processes across the state.

Kits Tested in 2016 Inventory

■ Tested Kits (100%)

Kits Tested in 2021 Inventory

Inventory phases 1 & 2 completed for all unsubmitted kits only

■ Tested (47.37%)

■ Untested (52.63%)

Untested Kits currently in South Dakota as of 2021:

10

SAKI grantees are working to have all unsubmitted and partially tested kits inventoried by the end of 2021. The above data represents the inventory of unsubmitted kits and does not include partially tested kits.
